

St. Mary's Hospital New Critical Care Tower

Welcome to the future of faith-based healing — where compassion meets innovation.

The St. Mary's Critical Care Tower Project addresses the present needs of our community by increasing critical care capacity to serve our growing population.

Key deliverables

- **\$370M** investment to expand critical care for adults, children and babies.
- Encompassing **200,000** square feet of new construction and **90,000** square feet of renovation.
- Critical care capacity will increase by nearly **100%**.
- Expanding the NICU from 21 to **31** bassinets with private rooms.
- Inpatient Smart Rooms using AI to elevate patient care and safety.
- Helipad relocated to roof for enhanced patient safety and access.
- Creation of approximately **357** new hospital employment opportunities.
- New Linear Accelerator with HyperSight™ technology delivers superior cancer treatment.

Expanding high quality, tertiary and quaternary, faith-based health care to the Richmond community and beyond.
