

2022-2023 Academic Year

Bon Secours Mercy Health- Sports Medicine Fellowship

Michael Eaton, DO
Fellow

Medical School: Marian School of Osteopathic Medicine

PM&R Residency: MetroHealth Physical Medicine and Rehabilitation Residency Program

Personal interests: Running, Rock & Roll, performing arts medicine, action sports, collecting art, studying, and hanging out with my wife and kids.

Why St. Francis Sports Medicine- “I had a great time during the interview. The ability to work in both the Family Medicine and PM&R setting in addition to having experiences with different orthopedic practices was very appealing. I was excited by the opportunity to become involved with different running events and to be able to work with high school, collegiate, and professional sports teams. Further, the diagnostic and procedural ultrasound training sounded fantastic.”

Lindsay Raulston, DO
Fellow

Medical School: Edward Via College of Osteopathic Medicine

Family Medicine Residency: Bon Secours St. Francis Family Medicine

Personal interests: Tennis, pickleball, hiking, reality television, and spending time with my husband and golden retriever.

Why St. Francis Sports Medicine- “I completed my residency here at St. Francis and was thrilled with the opportunity to stay for my Sports Medicine fellowship. I chose this program because I love Richmond and love what this program had to offer. We get a variety of experience covering various athletic levels. We also get great experience with ultrasound and challenging procedures.”
